FIGURE 1

### CAUTIONS

1. To avoid the possibility of electrical shock, turn off power supply before installation or servicing.

### INSTALLATION

1. Extend adjustable bar hangers, compress and remove from brackets attached to plaster frame.
2. Slide 27" (69 cm) fixed-length bar hangers into brackets.
3. Place plaster frame with bar hangers on T-bar in ceiling.
4. Adjust placement of housing and frame to correspond to hole in ceiling tile.
5. Loosen screws in housing to allow housing to slide down flush with bottom of ceiling tile.
6. Fasten bar hangers to T-bar with loose wire.
