Performance
- 1-year limited warranty

Construction & Materials
- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- Fixed cutoff glare shield to reduce light pollution
- Tempered-glass lens, thermal shock and impact resistant
- 1/2-inch NPT tapped and plugged holes located on top and two sides for easy wiring access
- Hinged door frame for easy relamping

Electrical
- Optional photocell available

Regulatory
- UL and cUL Listed
- Suitable for wet locations

Accessories
CAT.# E-ACP1 (120 volts)  
CAT.# E-ACP2 (208/240/277 volts)  
Photocell is field installed.

due to continuous product improvement, information in this document is subject to change. All published photometric testing performed to IESNA LM-79-08 standards by a NVLAP certified laboratory. Fixture photometry was completed on a single representative fixture. Actual production units may vary up to ±10% of initial delivered lumens. Lumen maintenance values at 25°C (77°F) are calculated per TM-21 based on LM-80 data and in-situ fixture testing.
