

RESI-MASTER™ Heavy-Duty Ship Augers

■ **Reinforced Cutting Edge**

The 62° cutting angle reinforces the cutting edge and provides greater durability even after multiple nail strikes

■ **Increased Life & Durability**

The hardened lead screw and cutting edge provide increased wear resistance and extended life

■ **Quick & Efficient Chip Removal**

The secondary relief angle evacuates wood chips quickly and prevents the auger from jamming, even in wet or treated woods

■ **Easy Bit Ejection**

The oversized cutting head makes a hole larger than the body of the bit for easy ejection from the work piece

Efficient design quickly feeds through and ejects chips even in wet or treated woods without binding or jamming

RESI-MASTER™ Heavy-Duty Ship Augers

- 62° reinforced cutting edge for added durability
- Precision ground, self-feeding lead screw
- Secondary relief angle for efficient chip removal
- Hardened lead screw and cutting edge powers through nails and staples and extends tool life
- Hardened & tempered shaft minimizes warping
- Quick-change shank design for fast bit changes and use with pneumatic drills
